

Dear Parent or Guardian:

My name is Rusty Earl. I am a video producer and a member of the Wamego Branch in the Salina Stake. I have been asked by President Knapp to film/document the 2015 youth trek to Martins Cove, WY (June 8th-12th). I am so excited to be a part of this historic trip and to capture the stories and spirit of what is sure to be a memorable adventure!

My goal in filming this event is to create a 30-minute documentary that shares the experiences of youth and local leaders as they visit one of church history's most memorable locations, Martin's Cove. Several youth and leaders will be interviewed before, during, and after the trip to share their experiences, testimonies, and personal family histories. We hope to have a completed documentary by the end of summer. Each person attending the event will receive a copy of the film as a gift from the stake.

The footage from the film will be shared with the Church's media department for possible use on church history websites and for other video projects. It is also possible this film could be aired on Kansas PBS stations within the coming year. Because of the multiple possible uses for the footage we need two different waivers signed. None of the footage will be sold, and I will not be receiving monetary gain by doing this. But it is important that we receive both signed waivers before the trip. If you have any concerns about filming please feel free to contact myself directly or a member of the Stake Presidency.

Thank you for your time and attention to these details. I will be actively involved in sharing updates, short clips, and still images from the trip on the trek webpage in the coming months.
